# Contents Volumes 81–82

Storage capacity and water use in the 21 water-resource regions of the United States geological survey
A. Stern ..... 1

Developments in global inventory investment
A. Chikán and T. Tátrai ..... 13

Long term trends in US inventory to sales ratios
F.O. Irvine ..... 27

Problems with using traditional aggregate inventory to sales ratios
F.O. Irvine ..... 41

Operations manager turnover and inventory fluctuations
J.A. Alfaro and J.A. Tribó ..... 51

Optimal lot size, inventories, prices and JIT under monopolistic competition
M.C. Lovell ..... 59

Production-planning horizon, production smoothing, and convexity of the cost functions
M.A. Ghali ..... 67

Inventory changes and the closing of macroeconometric models
R. Fiorito ..... 75

You may not use inventory levels to fill orders if...: Evidence from a survey of UK manufacturing plants
A. Oke ..... 85

Agility and mixed-model furniture production
A.C. Yao and J.G.H. Carlson ..... 95

A simulation study of lateral shipments in single supplier, multiple buyers supply chain networks
A. Banerjee, J. Burton and S. Banerjee ..... 103

Is anybody listening? An investigation into popular advice and actual practices
G. Vastag and D.C. Whybark ..... 115

Responsibilities for inventory decisions in Polish manufacturing companies
D. Kisperska-Moroń ..... 129

Firm performance under just-in-time and traditional proxies for profit maximization
D.G. Bivin ..... 141

PII: S0925-5273(02)00439-5

Retailer's pricing, credit and inventory policies for deteriorating items in response to temporary price/credit incentives
F.J. Arcelus, N.H. Shah and G. Srinivasan ..... 153

Overage inventory—how does it occur and why is it important?
G. Relph and P. Barrar ..... 163

An organizational perspective on inventory control: Theory and a case study
L.G. Zomerdijk and J. de Vries ..... 173

Flows of goods or supply chains; lessons from the natural rubber industry in Kerala, India
J. de Haan, G. de Groot, E. Loo and M. Ypenburg ..... 185

Cross-functional decision-making in improving inventory management decision procedures
K. Korhonen and T. Pirttilä ..... 195

Manufacturing strategy and competitiveness
K. Demeter 205

The consignment stock of inventories: Industrial case and performance analysis
G. Valentini and L. Zavanella ..... 215

Modelling product returns in inventory control—exploring the validity of general assumptions
M.P. de Brito and R. Dekker ..... 225

The changing relationship between production and inventory examined in a concurrent engineering context
M. Bonney, S. Ratchev and I. Moualek ..... 243

An approach to link customer characteristics to inventory decision making
J. Huiskonen, P. Niemi and T. Pirttilä ..... 255

Multiple-supplier inventory models in supply chain management: A review
S. Minner ..... 265

Policies for inventory/distribution systems: The effect of centralization vs. decentralization
B. Abdul-Jalbar, J. Gutiérrez, J. Puerto and J. Sicilia ..... 281

Properties of lot-sizing rules under lumpy demand
I.N. Pujawan and B.G. Kingsman ..... 295

Inventory control and investment policy
E.V. Bulinskaya ..... 309

An NPV and AC analysis of a stochastic inventory system with joint manufacturing and remanufacturing
E. van der Laan ..... 317

Optimal control of a one product recovery system with leadtimes
G.P. Kiesmüller ..... 333

Transaction costs in finance and inventory research
H.-J. Girlich ..... 341

Optimal production–inventory strategies for a HMMS-type reverse logistics system
I. Dobos ..... 351

How far should JIT vendor–buyer relationships go?
I. David and M. Eben-Chaime ..... 361

The market-oriented dynamic product recovery model in the just-in-time framework
K. Richter and B. Gobsch ..... 369

VaR as a risk measure for multiperiod static inventory models
E. Luciano, L. Peccati and D.M. Cifarelli ..... 375

Rounding off the optimal solution of the economic lot size problem
L. Bertazzi ..... 385

The maximin criterion as an alternative to the expected value in the replanning issues
L. Bogataj and D. Hvalica ..... 393

Inventory management in a multi-echelon spare parts supply chain
M. Kalchschmidt, G. Zotteri and R. Verganti ..... 397

The detailed coordination problem in a two-level assembly system with stochastic lead times
O. Tang and R.W. Grubbström ..... 415

Partnership and negotiation support by joint optimal ordering/setup policies for JIT
P. Kelle, F. Al-khateeb and P. A. Miller ..... 431

Optimal control of a distributed service system with moving resources: Application to the fleet sizing and allocation problem
P. Köchel, S. Kunze and U. Nieländer ..... 443

Restricted time-remembering policies for the inventory rationing problem
P. Melchiors ..... 461

Economic lot scheduling on multiple production lines with resource constraints
R. Pesenti and W. Ukovich ..... 469

A stochastic model of multi-level/multi-stage capacity-constrained production–inventory systems
R.W. Grubbström and Z. Wang ..... 483

Joint replenishment multiproduct inventory problem with continuous production and discrete demands
R. Rempala ..... 495

A stochastic inventory model of dual sourced supply chain with lead-time reduction
S.W. Ryu and K.K. Lee ..... 513

Optimal stopping and restarting production times for an EOQ model with deteriorating items and time-dependent partial backlogging
K. Skouri and S. Papachristos ..... 525

Competitive and cooperative policies for the vendor–buyer system
S. Bylka ..... 533

Approximate optimization of a two-level distribution inventory system
S. Axsäter ..... 545

A model of crop planning under uncertainty in agricultural management
T. Itoh, H. Ishii and T. Nanseki ..... 555

Minimum number of warehouses for storing simultaneously compatible products
R. Kalfakakou, S. Katsavounis and K. Tsouros ..... 559

A model for evaluating supplier-owned inventory strategy
R. Piplani and S. Viswanathan ..... 565

Capacitated two-indenture models for repairable item systems
W.H. Zijm and Z.M. Avşar ..... 573

Prediction of the demand of the railway sleepers: A simulation model for replacement strategies
W.Y. Yun and L. Ferreira ..... 589

A model to evaluate inventory costs in a remanufacturing environment
Z.P. Bayındır, N. Erkip and R. Güllü ..... 597

Diary of Events ..... 609

Author Index to Volumes 81–82 ..... 611
